PROFESSIONAL SUMMARY

Full-Stack Developer & AI Engineer specializing in modern web applications with AI integration. IIT BHU Hackathon 2025 Winner with expertise in React, Supabase, LLMs, MCP, and Agentic AI. Passionate about building real-world AI-powered products with proven experience leading teams and mentoring 50+ students.

EDUCATION & ACHIEVEMENTS

Bachelor of Technology - Computer Science & Engineering
Noida International University, Greater Noida, UP | 2024-2027 (Expected) | GPA: 8.6/10.0
Relevant Coursework: Machine Learning, Data Structures, AI/ML, Database Management, Web Development, System Design

🏆 **Winner, IIT BHU Hackathon 2025** | IIT Banaras Hindu University | March 2025 - Led team using full-stack development, Hugging Face AI models, Vercel deployment, 1st among 200+ teams
IBM Student Ambassador | 2024 - Present - Conducted workshops on full-stack development, AI tools, Firebase, Supabase, and Vercel deployment for 50+ peers
Research Publication | JSIAR, India | Oct 2025 Adaptive Hybrid Intelligence Framework for Proactive Cross-Border Fraud Detection in Electronic Transaction Ecosystems

---

EXPERIENCE

Freelance Full-Stack Developer & AI Engineer | Jan 2025 - Present
• Build end-to-end web applications with modern frontend frameworks and backend APIs with Firebase/Supabase integration
• Integrate AI/ML models using Hugging Face, n8n workflows, and popular AI tools with deployment on Vercel
• Design UI/UX using Figma/Canva, rapid prototype with Lovable/Webflow, and implement responsive designs
• Practice daily AI learning using GitHub Copilot, Cursor, and cutting-edge development workflows
Languages: English (Professional), Hindi (Native) | Immediately available for internships and full-time opportunities

Coding Club Lead | Noida International University | 2025 - Present
• Organised hackathons using full-stack development and AI integration workflows
• Mentored 50+ students in web development, AI tools, Vercel deployment, and modern development practices
• Introduced cutting-edge tools: GitHub Copilot, Figma, Firebase, Supabase, AI/ML and no-code platforms, increasing engagement 30%

Event Organizer | UNI-ENTRENOVA 2.0, NIU | April 2025
• Coordinated logistics for leadership event with 100+ participants and managed cross-functional teams

---

PROJECTS

Full-Stack • AI/ML • Agentic Systems • Real-World Applications

AI/ML Model Lab — NLP & Agents Playground (2026), Technologies: NLP • Fine-tuning • LoRA • AI Agents • Edge Functions
GhatBanaras — AI Travel Platform *(2025)* Technologies: OpenAI • Travel AI • Local Insights • Modern UI
RAGMode — Realtime AI Workspace *(2025)* Technologies: LangChain • RAG • Vector Search • Streaming AI • PDF Parsing
Campus Innovation Platform — 500+ active users within weeks Features: AI Q&A, Lost & Found, Campus Marketplace, Study Groups, Events

Technologies: Vue.js, Python, Supabase, Hugging Face, OpenAI API, Vercel, Canva, TensorFlow, Git, GitHub, VS Code, Postman
Certifications Applied: AI/ML Certification IBM/Google (2025), Advanced JavaScript (2024), Python for Data Science (2024)
• Built scalable web application with modern frontend, backend APIs, and Supabase database integration
• Implemented Hugging Face models and OpenAI API integration, achieving 88% user satisfaction
• Designed a complete UX flow using Canva graphics, deployed on Vercel with an automated deployment pipeline
• Added features: user authentication, payment integration, analytics dashboard, and comprehensive API documentation

AI/ML & Tools: Anthropic SDK • LangChain • LlamaIndex • Machine Learning • Generative AI • Prompt Engineering • Fine-Tuning • Vector Databases • RAG • Embeddings • AI Agents • Natural Language Processing (NLP) • TensorFlow • Agentic Kit • MCP • LLM
Additional Certifications: Web Development — Unstop | AI/ML & Generative AI — IIT Kanpur | Events & Tech Fest — IIT BHU *(2026)*
